2) Unique Entity Identifier (UEI) Validation

- All LFRF recipients that had a SAMs account as of April 2022, automatically transitioned from a DUNS # to a UEI#. Make sure you know yours and have it handy for your report.
- For Municipal NEUs: Email ARP@NCLM.org your UEI# to validate it with NCPRO and Treasury to avoid potential issues submitting your report.
- If you have multiple UEIs and SAMs accounts for a government unit, make sure the one you utilized for the April 2022 report is active and use the UEI# associated with that SAMs account for the 2023 report.
- In May, begin the process to have only one Entity Registration in SAMs and one UEI to decrease possible future issues and meet intent of system.
- Ensure you have the unique entity ID number and entity type for all subrecipients and contractors. **This does not apply to jurisdictions that spend their entire ARPA allocation in the revenue replacement category*

4) Know Who Your Authorized Administrators Are. Update Roles & Add New Contacts

- Your unit noted who within your organization is authorized to submit reports on your behalf in your Treasury account. Only they are authorized to complete your report.
- That person can also update roles and add new contacts.
- If that person is no longer with your organization, you will need to get that modified prior to submitting report.
- Each Treasury Account Administrator should have received an email from Treasury on or around March 22, 2023. If you did not receive it, look for it. If no one in your organization received it, that might be a red flag that your administrator is no longer with your organization.
- This email provided great guidance on this preparedness tip and provided your unique account ID to Treasury.
